

The Butner Arrow

The Daily Bulletin of the 2010 North Carolina Wing Encampment

Tomorrow's Weather Forecast:
COLD!

Expected High – 88 Deg F

Sadly, one of our cadets has been released due to a medical illness. Austin “Puppychow” Porterfield went home yesterday. He will be fine AND, he has received full credit for the Encampment. We wish him well, and a hearty CONGRATULATIONS!

The Encampment Ops Tempo remains high, with a very special visit by a UH-72 Lakota, the Army's newest helicopter from the Army National Guard unit at Raleigh-Durham International Airport. Our thanks goes to 1Lt Darrell Scoggins, and CW4 Ty Mullins for flying and

spending time with the Cadet Wing. The Lakota flew in and landed on the

LZ at Range 4, the 1000 yard range. Quite a few cadets salivated over hoping to get to shoot on that range someday. While at the range waiting for the Lakota to arrive, the Cadet Wing took the opportunity to get some quality drill time in.

SAFETY remains a high priority with Encampment Staff. Last night at approximately 2330, the advanced ground team flight was pulled out of the field due to an imminent thunderstorm threat. Remember! If you can hear thunder, then you can be struck by lightning. Lightning is the number one environmental killer in the United States.

CONGRATULATIONS! According Maj Merlin “Butch” Phillips, 74 cadets successfully completed their ACUT Communications Course. Captain Fred Draper and c/CMSgt Crawford assisted in teaching.

While at the Range 4 LZ, the group

encampment photo was taken. The photos taken turned out well.

A copy has been posted to the Facebook page, and an additional copy sent out as a .pdf on the CAPNC email list. A full, uncropped copy will be sent out to all participants that we have email addresses for. IF you do not ever receive a copy, please email Maj. Wiggs or the PAO, Lt Col Donald Beckett for a copy.

Our wonderful friends with the N.C. National Guard continue to work very hard to keep us fed. Please Thank Them as you go through the line during chow.
