Major Barron,

I always look forward to receiving updates to regulations, pamphlets, etc.

The update to CAPR 10-1 will be very helpful, especially the complete list of functional addresses & symbols, and solving the //SIGNED// issue. Please see my recommended changes in the attached draft. I would like to see more examples of e-mail correspondence. I'm assuming that a correctly formatted memo/letter can be an attachment to an e-mail instead of using the USPS.

Although the "The Tongue and Quill" is a very helpful document, it only touches the e-mail surface. I think some Civil Air Patrol thinking and examples should be added.

Thank you for the opportunity to comment directly.

Regards,
