

THE BUTNER ARROW

THE DAILY BULLETIN OF THE NORTH CAROLINA WING ENCAMPMENT

VOLUME 2, ISSUE 3

MONDAY, 20 JUNE 2011

CLEAR THE LANDING ZONE!

Imagine if you will, a giant Euro-copter 145 flying out of nowhere and landing in front of you!

Well that is what happened at the 2011 encampment! Different from the iconic helicopter of last year's encampment photo this aircraft is smaller and more maneuverable. The helicopter landed on an established landing zone (LZ) at Range 4 and all of the encampment seniors, cadet staff, and basics alike visited this impressive display of US Army Aviation. The pilot, CW4 Ty Mullins and his co-pilot,

CW2 Joe McCarthy were kind enough to let everyone look inside and see the controls. The pilots said that the helicopter is mainly used for Homeland Security missions, in addition to Search And Rescue, and that where they fly encom-

passes the entire state. The NC Wing 2011 encampment would like to Thank the NCNG for flying the Lakota up to the encampment just for us and for letting us use the Butner training site to let us host

this year's NC Wing encampment. Huuaahh!!!

SPECIAL POINTS OF INTEREST:

- *Menu for Tomorrow: (20JUN)*

Breakfast: Eggs

Grits

Biscuits / Bagels

Bacon or Sausage

Orange Juice

Coffee

Lunch: MRE's

Dinner: Fried Chicken

Mashed Potatoes / Gravy

Green Beans

Dessert

WEATHER FORECAST

DANGER—

Monday High: 94F

Heat Index: 103F

Times of clouds and sun with a shower or thunderstorm around; very hot. The heat index will be a balmy 103. Why balmy and not hot, you ask? Wait until tomorrow.....

REMEMBER TO HYDRATE!

FIRE!

In the blazing heat a brave cadet faces the flames and puts out the fire with the help of Butner Public Safety and a fire extinguisher.

Butner Public Safety is a mixture of the police and the fire department.

Fire was intense but easy to put out.

Thanks Butner Public Safety!

SEMPER VIGILANS

ALWAYS VIGILANT

NEW MASCOT SAFETY—

We would like to welcome our new drill instructor.

Sgt. Fist! Fist is an enlisted National Guard dog who is stationed here at Camp Butner. Sgt. Fist now has found a new temporary job as encampment drill instructor. He has marched along side the cadets as they marched and showed them what they were doing wrong. Sgt. Fist is also great at running, tracking, and guarding.

O-rides are one of the greatest experiences a cadet can have. There is nothing like flying through the air. Although fun, it is extremely dangerous. The results of an error are catastrophic. But, with some easy to follow controls it can be the best experience of your cadet career. Participate in the pre-flight inspection, maybe you will see something the pilot missed. Always obey your pilot.

The obstacle course is a very challenging activity and confidence builder. It is a really awesome activity. However, there are some major risks. Dehydration is the main cause of the majority of the injuries in the summertime. Dehydration

can make you do weird things when the brain isn't receiving the necessary fluids. To solve this simple problem you need to drink **LOTS** of water while following the limits of one quart an hour and twelve quarts a day. Have fun at encampment, but **STAY SAFE** while doing

so.

Semper Hydrate.

THE FLIGHT OF THE FLIGHTS

As mentioned before there are six flights this year. These flights are AE, Leadership, Basic Ground Team, Advanced Ground Team, FLM, and MRO.

Golf flight is the Aerospace flight and teaches aviation and rocketry.

Delta flight teaches advanced

ground team.

Echo flight teaches flight line marshalling and over all flight line safety.

Foxtrot flight teaches Mission Radio Operator (MRO)

Charlie flight teaches basic ground team aka: Gtm. 3.

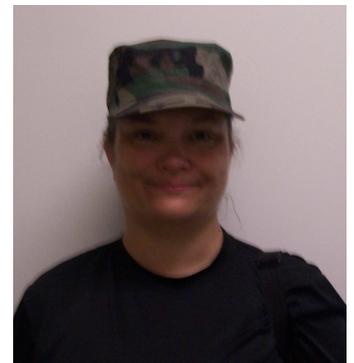

Hotel flight teaches leadership.

STAFF WELCOME

2nd Lt. Norma Brittain

2nd. Lt. Brittan is an encampment TAC officer for Foxtrot Flight and is also a member of NC-170 Brunswick County Squadron. She is also a famous bluegrass banjo player. Lt Brittain has confidence in the encampment staff and says that encampment is tough but is running smoothly.
